Secchi - higher number is better

P - lower number is better

2024 Average vs Historical Average

	Improved
	Worsened
	Less than 1 unit change

* Historical data through 2018 can be found through :

<https://www.lakesofmaine.org/index.htm>

** Prior to 2018 samples were often collected with a "core" (a hose) that extended from the surface to the thermocline (rapid change in temperature) in order to obtain an upper water layer average.
